FROM THE TEACHER'S DESK...

"FIND SOMEONE WHO" is a fun cooperative learning structure that we do in class! Students must "Find Someone Who" knows an answer to a question on their worksheet. After that student has helped them get the answer, they initial next to the question they helped with. Then, the other student returns the favor and initials as well. It's a great structure to practice social and academic skills and students enjoy greeting each other, celebrating with fist bumps, high-fives, and learning along the way!

Did you know about the 2 powerful study tools below? For Spelling words try SpellingCity (top) and for Vocabulary words try Quizlet (bottom)! Save them to your FAVORITES for convenient, on-demand word practice!
